DIRECTOR'S MESSAGE

Education is never a one-sided affair but it is a two-way process. On the other side of the student there are books, teachers and other sources of information. It is not the teacher who teaches but a learner who learns. You cannot make a horse drink water unless the horse is thirsty and feels to drink water. We strive here to create such an atmosphere where the students learn spontaneously, where they feel learning. Merely learning calculations won't work but to grab the joy behind mathematics is what matters. This joy in learning comes with spontaneity and I think that is a sure way towards excellence.

I firmly believe that value based education is must for the creation of truly enlightened human beings and it is not the children alone that we have to impart values. The parents and teachers should equally practice the ways and methods to pave path for good living. For true education knowledge and values should go hand in hand. As we have embarked this journey to ignite the young minds, we expect your firm support in creation of radiant generation.

MR. SARYU MISHRA
 Director
 S M Public School

*Winter Break based on climatic conditions		
● New Session begins (2026-27) from 2nd April 2026 (Thursday)		

ADMINISTRATOR'S MESSAGE

Education plays a key role in the overall development of the society. The role of education is definitely not limited to giving and grasping knowledge and theory. The true goal of education transcends much beyond just awarding degree and certificate to the students. As Mahatma Gandhi said, "By Education I mean an all-round drawing out of the best in child and man-body, mind and spirit". The ultimate goal of education is the discovery of the meaning of life and the fulfilment of life and all mankind as well as for oneself.

The quest of education is knowledge, humanity, culture, wisdom and sharpness but it should be noted that knowledge is not given but earned and character is not granted but cultivated.

I wish all the students a grand success in their career and prosperity in their future life.

ALOK KUMAR
Administrator
S M Public School

PRINCIPAL'S MESSAGE

The first step into school is that giant step forward, where children embark on the great adventure of discovering the wide world outside and the depth of the world within. As we hold the little finger and guide the young ones forward, we realize our responsibility of nurturing their curiosity, igniting their minds to pierce the skies, helping them to discover the world of books and richness of experience.

We, at S M Public School believe that education is a process of awakening individual potential to creative

knowledge, but more importantly enlightening students with the wisdom that they must "never put a price tag on their heart and soul". A good career is important but a good character is paramount. We believe that 'individuals' are the atoms that hold tremendous power within to serve as agents of change and thus are confident that our students, enriched with a sense of high morality and social responsibility will be makers of a virtuous society.

ABHISHEK KUMAR
Principal
S M Public School
